Dedication

Mr. Richard Emerson

We are pleased to dedicate this book to Mr. Richard Emerson. It is a token of our appreciation for your many years of hard work as a teacher and your help in getting us through these four years. We will miss your subtle sense of humor and the fact that you could never remember our name. We have enjoyed having you by our side and our memories of you will linger in our hearts and minds. Thank you.

"The young ladies and young men" of the class of 1999

Class Advisors

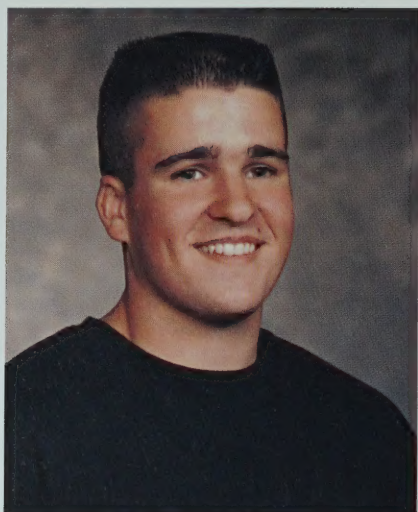

THE CLASS OF 1999 would like to express our deepest gratitude to our senior class advisors. With your hard work and determination, we not only came a long way, but we were able to reach our goals. Thank you Mrs. Dawe and Mr. Raucci. You were an inspiration to us all.

ADMINISTRATION

Helen M. Hegarty, Principal

Dear Class of 1999

Every year someone always asks me if I am happy to see a class leave. My response is always mixed because I am both happy and saddened by your graduation.

I am happy that you are leaving because you are off to a very, new and exciting stage in your life. I have watched you grow up and know that you are ready to face the challenges and decisions of adulthood. I am proud of your accomplishments and expect that you will be productive and successful citizens.

I am also saddened by your leaving. I will miss you as a class and as individuals. You have matured into cooperative and responsible students with whom I have truly enjoyed working with.

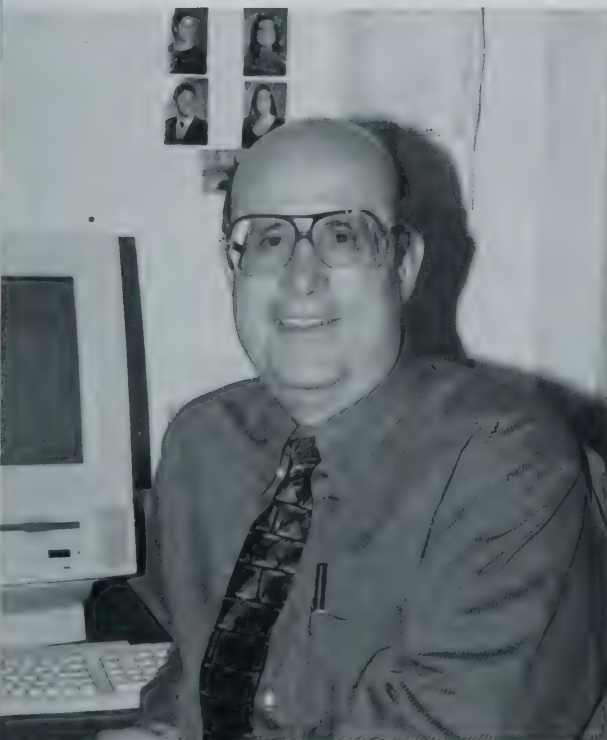

Although you will be missed, it is time for you to move on. I hope that your four years at Essex Aggie have provided you with a lifetime of good memories, good friendship and a desire to continue the working process.

Helen M. Hegarty

To the class of 1999

I will always have special memories for your class because of your enthusiastic leadership and school spirit. Collectively, you have been a very successful class in all your activities of which I am very proud. I hope your education and experiences here will be the basis for your success in the future.
